You may contact OBDSTAR by visiting the website at www.obdstar.com, or writing to OBDSTAR Technology Co., LTD., West Block 4 floor. NO. 8 building of Xinwu industrial area, Taoyuan Street, Nanshan District, Shenzhen, Guangdong, China, to request written permission to use Materials

Safety Precautions

Before using X300 DP, please read the following safety information carefully.

1. Never collide, throw, or punch X300 DP, and avoid falling, extruding and blending it.
2. Do not use X300 DP in exceptionally cold or hot, dusty, damp or dry environments.
3. In places where X300 DP is forbidden or using X300 DP may cause interference or generate a potential risk, please turn off it.
4. Do not use X300 DP while driving.
5. Turn off X300 DP before boarding any airplane.
6. Never place X300 DP into apparatus with strong electromagnetic field.
7. Do not dismantle X300 DP by yourself. If there is any inquiry, please contact the dealer.
8. Keep X300 DP far away from magnetic devices because its radiations may erase the data stored on the devices.

9. Do not use X300 DP in high temperature and other environment with flammable gas, such as gas station.
10. Store X300 DP out of the reach of children and do not allow children to use it in unsupervised state.
11. Please use the included battery and charger. Otherwise, explosion may happen.
12. Adhere to laws and regulation, respect people's privacy and legal rights, during operating X300 DP.
13. Follow the instructions strictly when using USB cable, otherwise, it will damage your X300 DP and PC.

Precautions on Using X300 DP

- The ignition switch should be OFF while plugging or unplugging the diagnostic connector.
- Do not disconnect the vehicle inner consumer when the ignition switch is on. High voltage transients may encounter at the moment of disconnecting, which may damage the sensors and the ECU.
- Keep the computer away from magnetic object.
- Do cut off the power supply of ECU system before welding on the vehicle.
- Pay more attention to the ECU and the sensors when the operation is next to them.
- Ground yourself when you disassemble PROM, otherwise, ECU and sensors will be damaged by static electricity.
- Do connect ECU harness connector firmly, otherwise, electronic elements, such as IC inside ECU, will be damaged.

1 INTRODUCTION

1.1 PRODUCT PROFILE

X300 DP is a new Android-based vehicle trouble diagnostic device developed for internet applications. It inherits from OBDSTAR advanced diagnosing technology and it characterized by covering wide range of vehicles, featuring powerful function, and providing precise result.

Through Bluetooth communication between vehicle diagnostic OBD connector and variant mobile intelligent terminals, it achieves vehicle trouble diagnosis for full car model and full system vehicle.

Meanwhile, taking advantage of mobile internet, X300 DP integrates more application and service, such as Maintenance Database, remote assistant, One Key Update etc.

1.2 FEATURES

1. Diagnostic function:

- can diagnose the electronic control system of prevailing vehicle models covering Asian, European, American and Chinese. Diagnosis functions include: Read DTCs, Clear DTCs, Read data stream, Special functions etc.
- Classify special function: ABS, EEPROM Adapter, Battery match, CVT learning, EPB, Gear learning, Immobilizer, TPMS (low tire) reset, Mileage adjustment, ECU programming, steering angle reset.
- specially designed for Android platform with clear and user-friendly interface;

2. Maintenance database: Equipped with powerful database.

3. Video center: large amount of videos help users to operate device easily.

4. One Key Upgrade: Built-in wifi mode can realize application downloading and diagnostic function by one key upgrade.

5. System setting: set VCI formation, language, unit, data logging, user information etc.

6. Remote assistance: achieve remote assistance by this function.

7. Report center: record maintenance data logging and create reports during operation.

1.3 KNOWLEDGE OF X300 DP

1.3.1 Key Master whole set

X300 DP is composed of X300 DP tablet computer and VCI connector.

1.4 TECHNICAL PARAMETER

X300 DP:

- Operation system: Android 5.1
- CPU: Exynos4418 Dual Core ARM Cortex A9 1.4GHz
- Battery: 7000mh, rechargeable polymer lithium battery
- Standby time: subject to the using environment, it can keep working for 7 hours generally.
- Extension memory card: 32G MicroSD (TF)card supported
- Memory capacity: 2GB
- Storage capacity: 16GB
- LCD: 7.0 inch
- LCD resolution: 1280*800

- Touch screen: capacitive touch screen
- Camera: 5 mega rear view camera
- Wi-Fi: supported
- Bluetooth: supported
- Working temperature: -10℃~55℃ (14°F~131°F)
- Storage temperature: -20℃~70℃ (-4°F~158°F)
- Weight: about 0.7 Kg
- Dimension: 215mm*147*mm*24mm

VCI Connector parameter:

- Working voltage: 9~15V
- working current: about 35mA
- Standby current: about 25mA
- Working temperature: -20℃~55℃ (-4°F~131°F)
- Storage temperature: -30℃~70℃ (-22°F~158°F)
- Storage humidity: <80%
- Working humidity: <60%
- Weight: about 210g

1.5 PACKAGE LIST

Please check the following accessories while purchasing:

- X300 DP tablet computer
- X300 DP User's Manual
- VCI box
- USB cable
- Other (X300DP packing list in detail)

2 PREPARATION

2.1 CHARGE X300 DP

1. Connect the included USB cable with charger.
2. Plug the charger into AC outlet.
3. When it connects to charger, battery logo indicates

4. When battery logo changes into

, it indicates that the battery is fully charged and then disconnect charger from AC outlet.

5. Unplug USB cable on the charger from X300 DP.

2.2 USING BATTERY

- if the battery keeps unused for a long time or battery is completely discharged, it is normal if it can not be turned on while being charged. Please charge it for a period and then turn it on.
- Using data service will cause more power consumption and shorten the standby time.
- the charging time of battery varies with temperature condition and battery consumption status.
- While X300 DP has low battery, a beep will sound. If it is very low, X300 DP will be switched off automatically.

Note: Do one of the followings to save power:

1. When X300 DP keeps unattended, press POWER key to turn off the LCD.
2. Shorten the standby time: Enter main menu, choose "Settings" > "DEVICE"> "Display" > "Sleep" to select a shorter standby time.
3. Decrease the brightness of LCD display: Enter main menu, choose "Settings" > "DEVICE" > "Display" > "Brightness", and then drag the slider to adjust it.
4. Change "Live wallpaper" into "Gallery".
5. Set Bluetooth off: Enter main menu, choose "Settings" > "Wireless & Network" > "Bluetooth", and then toggle the switch to OFF.
6. Set Wi-Fi off: Enter main menu, choose "Settings" > "Wireless & Network" > "Wi-Fi", and then toggle the switch to OFF.

7. Press VOLUME key to decrease the volume.

2.3 POWER ON/POWER OFF X300 DP

2.3.1 POWER ON

Press and hold Power button for three seconds to turn on X300 DP.

Note: set date, time and time zone.

2.3.2 POWER OFF

1. Press and hold Power button for three seconds to turn off X300 DP.

2.4 ABOUT DESKTOP

The screen is shown as blow:

- A. Print screen : make a quick screenshot and save it to gallery
- B. Back button : go back to previous interface or exit program.
- C. Home button : return to the desktop
- D. Touch screen menu button : select desired item
- E. DP button : enter diagnose and program interface
- F. VIC button : enter system settings

2.5 CUSTOMIZE YOUR DESKTOP

2.5.1 Add items on the desktop

On the main menu, hold and press the desired item, the system will automatically enter the desktop and place the icon into the circle.

Hint: If many applications occupy the desktop, hold and press the desired one to move it to other extension desktop.

2.5.2 Move items on the desktop

1. Hold and press the item to be moved.
2. After a movable circle appears on the screen, drag it to the target location.

2.5.3 Delete items on the desktop

1. Hold and press the desired item, "X Delect" appears in the upper middle of the screen.
2. Dragon the item to "X Delect".
3. When the item and icon turn red and then release it.

2.5.4 Change your wallpaper

1. Hold and press a blank area on the desktop, a pop-up wallpaper will be shown on the screen.
2. Choose desired wallpaper.
3. Click upper left corner ✓ to set wallpaper.

2.5.5 Create a folder on the desktop

1. Drag one icon to another icon, the system will create a folder.
2. Input the folder name.

2.6 ON USING TOUCH SCREEN

- Tap: Use your finger to tap desired items to confirm or open it.
- Long-press: press and hold the current interface, icon or input field to open the available operation options.
- Slide: use your finger to slide the screen horizontally or vertically.
- Drag: hold and press the desired item, then drag it to any location.

2.7 AUTO-ROTATE THE SCREEN

To perform such operations as browsing webpage, viewing images etc, rotate X300 DP, 当 the screen will automatically change the display direction. To disable this function, click "Settings" and click "display" to enter. Unselect the option "Auto-rotate the screen".

2.8 LOCK&UNLOCK

2.8.1 Lock the screen

- When Key Master is ON, press POWER key to lock the screen.
- The system will lock the screen automatically after X300 DP remains idle for a long time.

2.8.2 Unlock the screen

Press POWER key to activate the screen and then drag the lock to "Unlock position."

2.9 NOTIFICATION BAR

The notice bar is used to display some activities, messages to remind and inform users.

2.9.1 Turn on the notification panel

1. When a new notification icon appears on the status bar, slide the status bar upwards to open it.
2. In the notification panel, click the desired notification item to open it.

2.9.2 Turn off the notification panel

Slide the panel upwards, and then specify the notifications as OFF to turn it off.

2.10 INPUT METHOD

Set input method:

Enter main menu, and then select "Settings" -> "Language and keyboard" to choose desired input method.

The default input method, Sogou input can support powerful word stock engine, intelligent Sogou input and multiple keyboard mode. Android keyboard and Google input method and make input easier.

To start text input mode, please click any text input entry.

In text input entry interface, text and icon are defined as follows:

: Cursor

: Voice input.

: Change input method skin.

: Hot word interface can set input method, skin and lexicon.

: QR code.

: Hide keyboard. Tap again to display keyboard.

: Delete all content.

: Newline

: Transfer into chinese-English input method.

: Insert white space.

: Transfer into number input method.

: Punctuation mark interface.

: Transfer capital and small letter.

: English association input.

2.11 HOW TO SET AS AIRPLANE MODE

According to the regulations of some countries or areas, PC device must be turned off before boarding on the airplane. The way to disable functions of X300 DP is to set it as airplane mode. In this mode, all wireless radio waves will be disabled, including mobile network, Bluetooth and WLAN.

Do one of the followings to enable or disable airplane mode:

- Press POWER key and choose "Airplane mode" from the pop-up option menu.
- Access the main menu, and choose "Settings" > "WLAN" > "More..." > "Airplane mode".

3 HOW TO DIAGNOSE

3.1 CONNECT VCI CONNECTOR

Procedure to connect VCI connector:

1. Locate vehicle's DLC socket. The DLC (Data Link Connector or Diagnostic Link Connector) is the standardized 16-cavity connector where diagnostic code readers interface with the vehicle's on-board computer. The DLC is usually located 12 inches from the center of the instrument panel (dash), under or around the driver's side for most vehicles. If Data Link Connector is not located under dashboard, a label should be there telling location. For some Asian and European vehicles, the DLC is located behind the ashtray and the ashtray must be removed to access the connector. If the DLC cannot be found, refer to the vehicle's service manual for the location.

2. Plug the VCI diagnostic connector into the vehicle's DLC socket (It is suggested to use the OBD 2 extension cable to connect VCI connector and DLC socket.). For non-16PIN DLC socket, please select the corresponding non-16 pin connector adapter, then plug the non-16pin end of the adapter into the DLC socket, and then connect the standard 16pin end VCI connector.

3.2 BLUETOOTH SETTING

1. Enter Key Master to set System setting, and choose VCI information.
2. Operate according to following prompt:
 - A. "Please match: VCI_888888888888(Bluetooth name)"
 - b. "Connected: VCI_888888888888(Bluetooth name)"
 - C. "Not connected: VCI_888888888888(Bluetooth Name)" Please connect VIC connector to vehicle, X300 DP will connect automatically.

3.3 DIAGNOSIS FLOWCHAT

For new users, please follow the operation below to get familiar with and start using X300 DP.
VCI diagnostic connector VCI → Bluetooth connection (USB connection) → user registration → user login → download or upgrade software → select function or vehicle type → proceed diagnosis

3.4 USER REGISTRATION & DIAGNOSTIC SOFTWARE DOWNLOADING

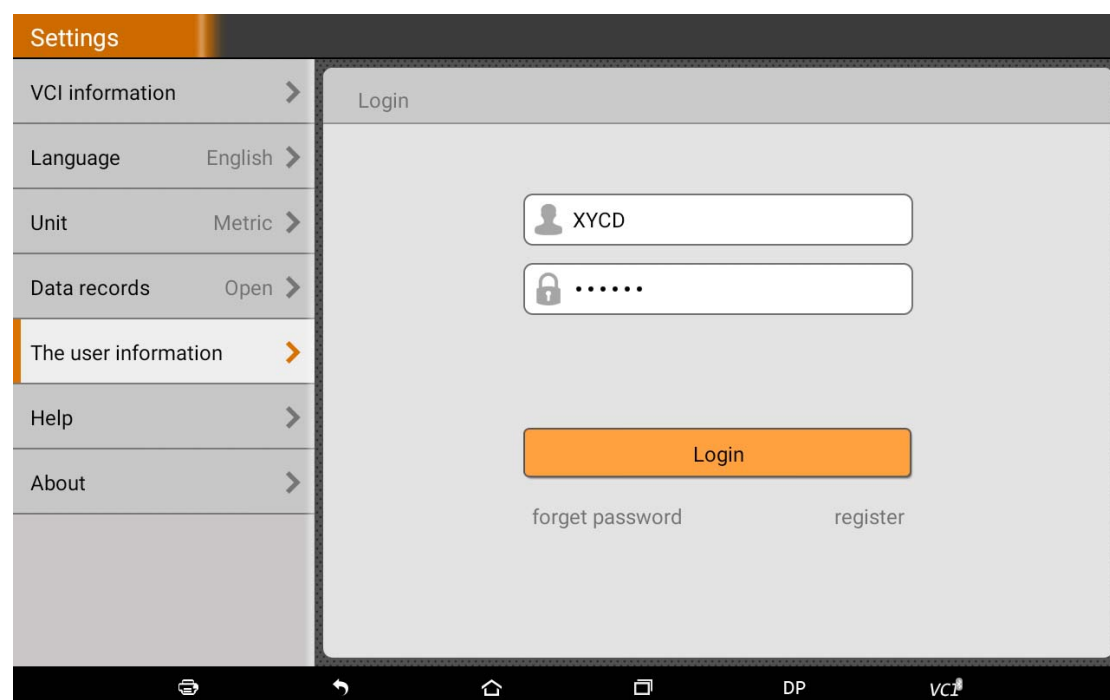

3.4.1 User registration

Click  to enter diagnostic software, select “the user information” in “settings” menu, then enter user registration window. As shown in following photo:

Settings	
VCI information >	register
Language English >	* SN
Unit Metric >	* Register Passw
Data records Open >	* Sale SN
The user information >	* user name
Help >	* Password
About >	* Confirm pa
	* user email
	Company Name
	Address
	Person Name
	Phone
	Post Code
	OK Back

Fill in the information in each field (Items with * must be filled). After inputting, tap “OK”
If you have registered to be a member, click “the user information” to enter user login page, as following picture shown:

3.4.2 Download diagnosis software

Tap “One Key Upgrade” to enter one key upgrade page, as following picture shown:

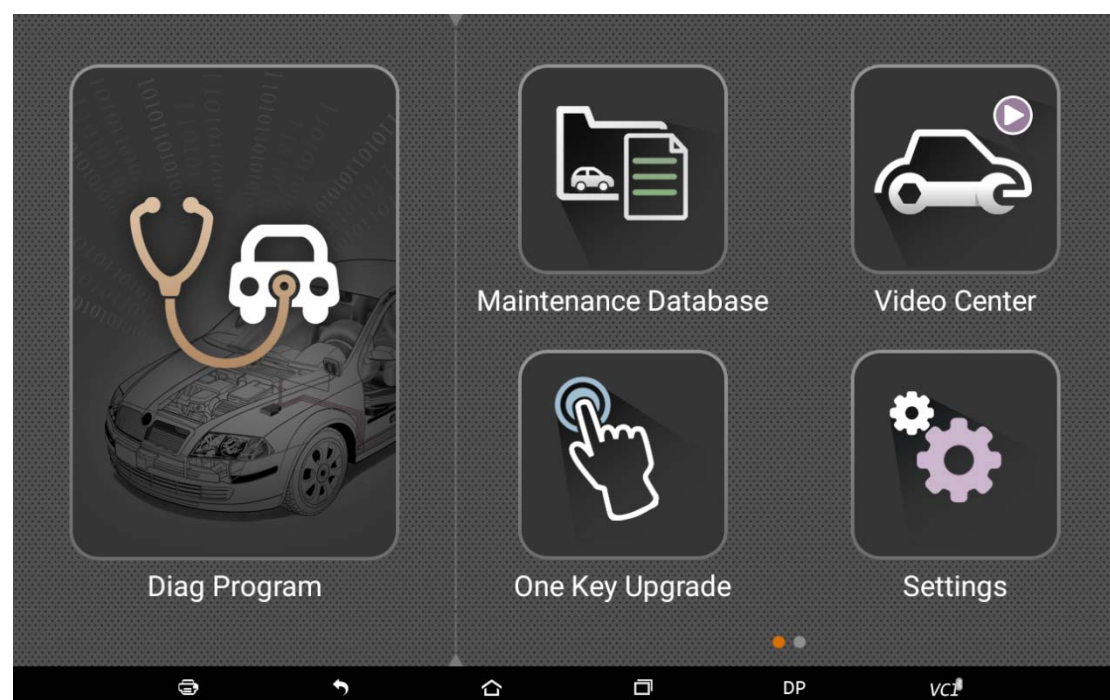

One Key Upgr...					SN:813300000050
<input type="checkbox"/>	Software name	Current version	Update version	0/61	Batch update

3.4.3 Diagnostic software main interface introduction

Function menu included as follows:

Diag Program: operate as a diagnostic tool.

Maintenance Database: Provides abundant automotive technology, handbook and repair case for your reference.

Video Center: to guide users by video.

One Key Upgrade: To download diagnostic software or upgrade diagnostic software to the latest version.

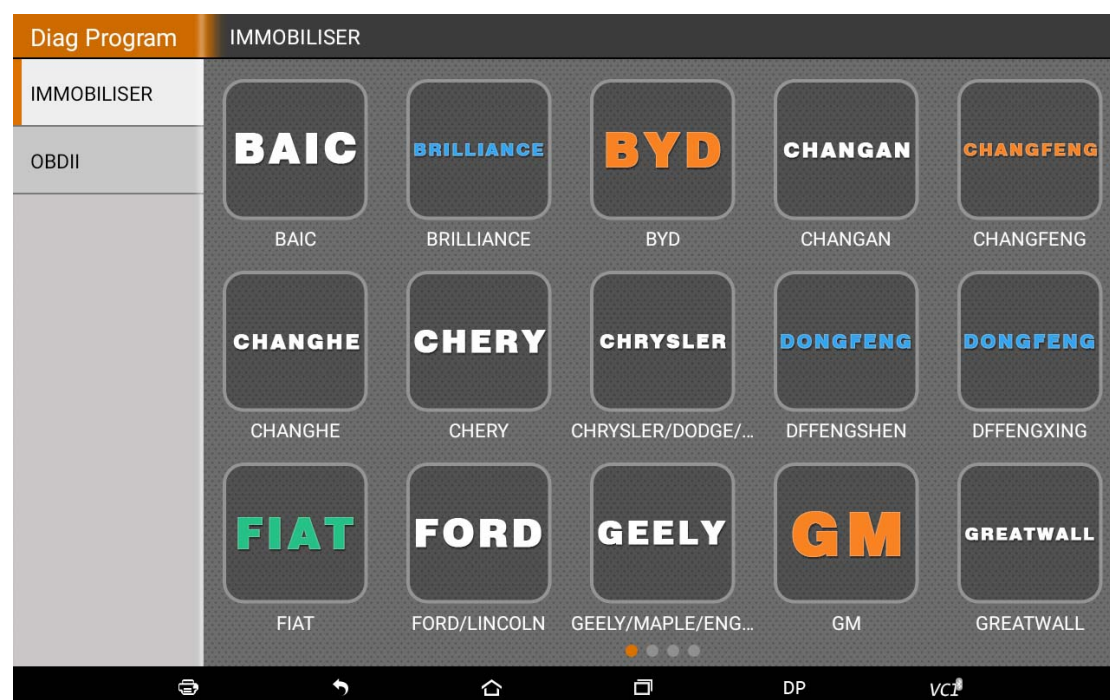

Settings: It includes VCI information, language, unit, data records, user information, help, about.

Remote assistance: Can realize remote hosting operation.

Report Center: Can record maintenance data and diagnostic report.

3.5 Start Diagnosing

Tap on the main menu screen, and then choose “DP” to enter the function selection and vehicle selection page. As following photo shown:

Hereinafter, take OBDII for example, to introduce how to start diagnosing.

Tap " OBDII ", and tap "OBDII" icon. As following photo shown:

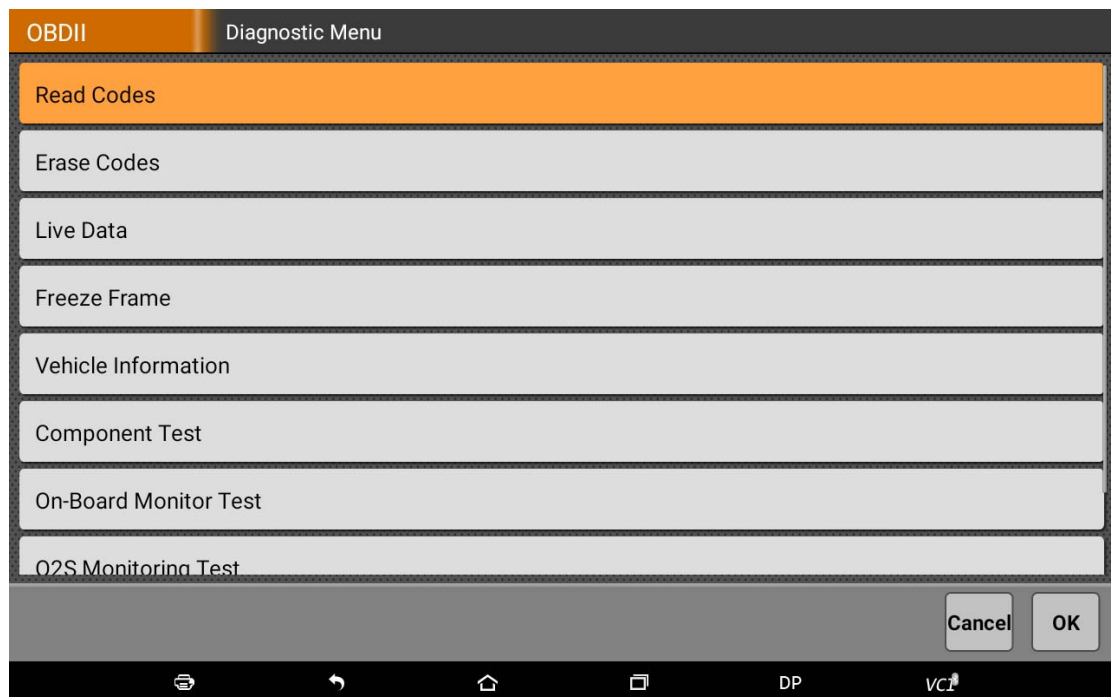

To select software version, as following photo shown:

To enter diagnostic function menu, as following photo shown:

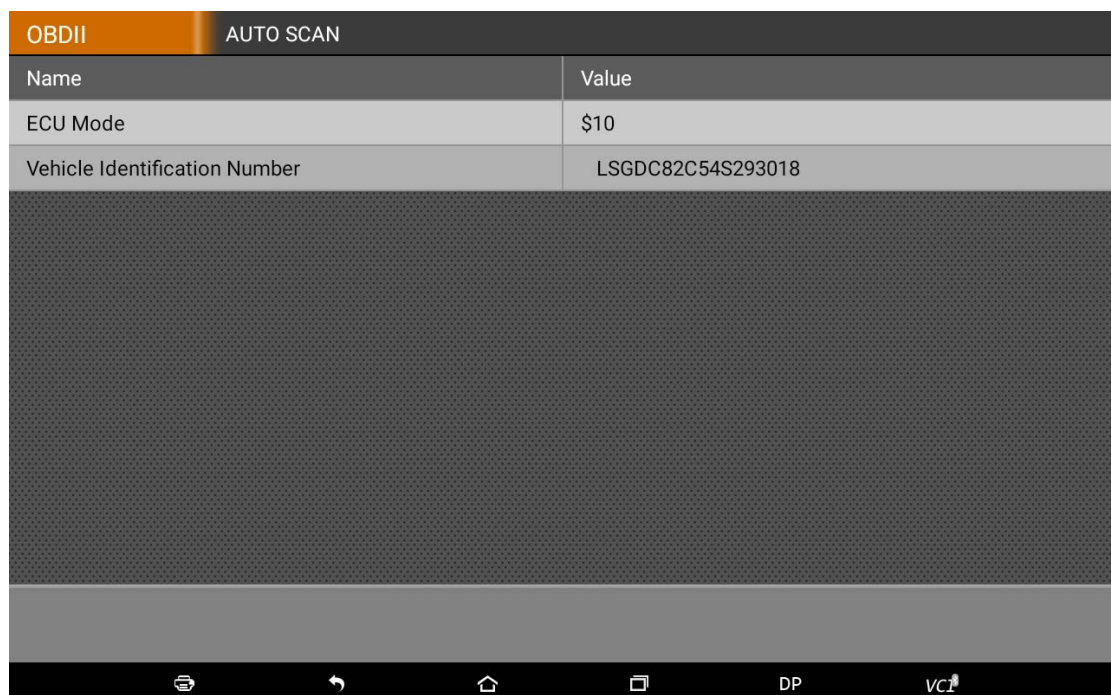

To select AUTO SCAN, as following photo shown:

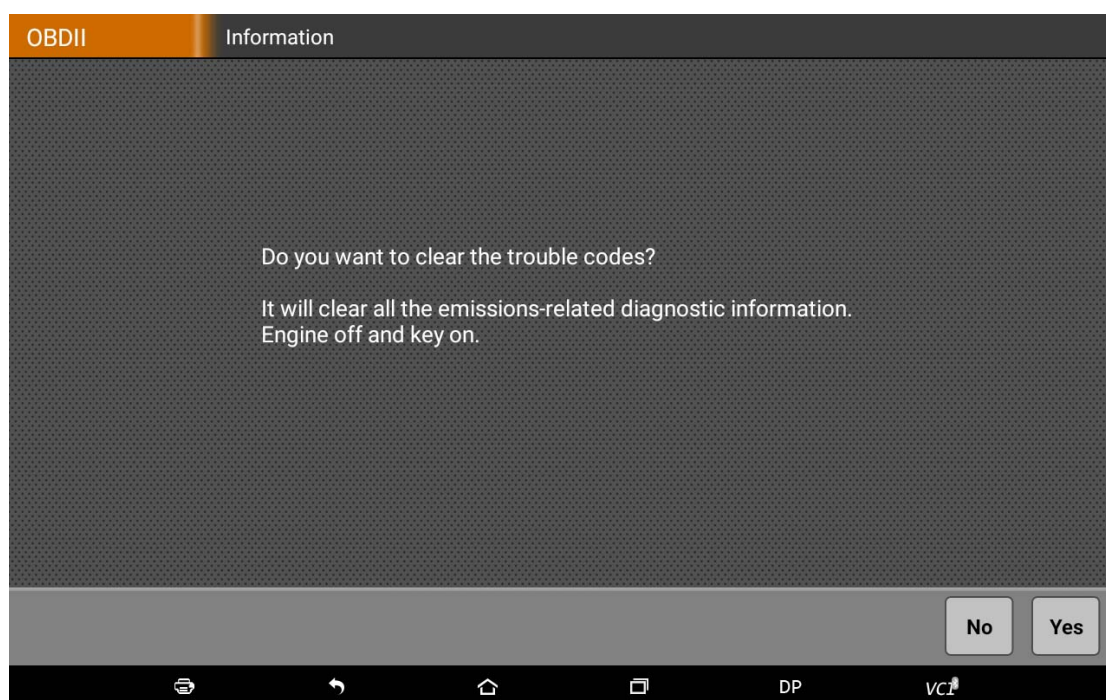

3 .5.1 Read vehicle information

Tap "Read vehicle information", as following photo shown:

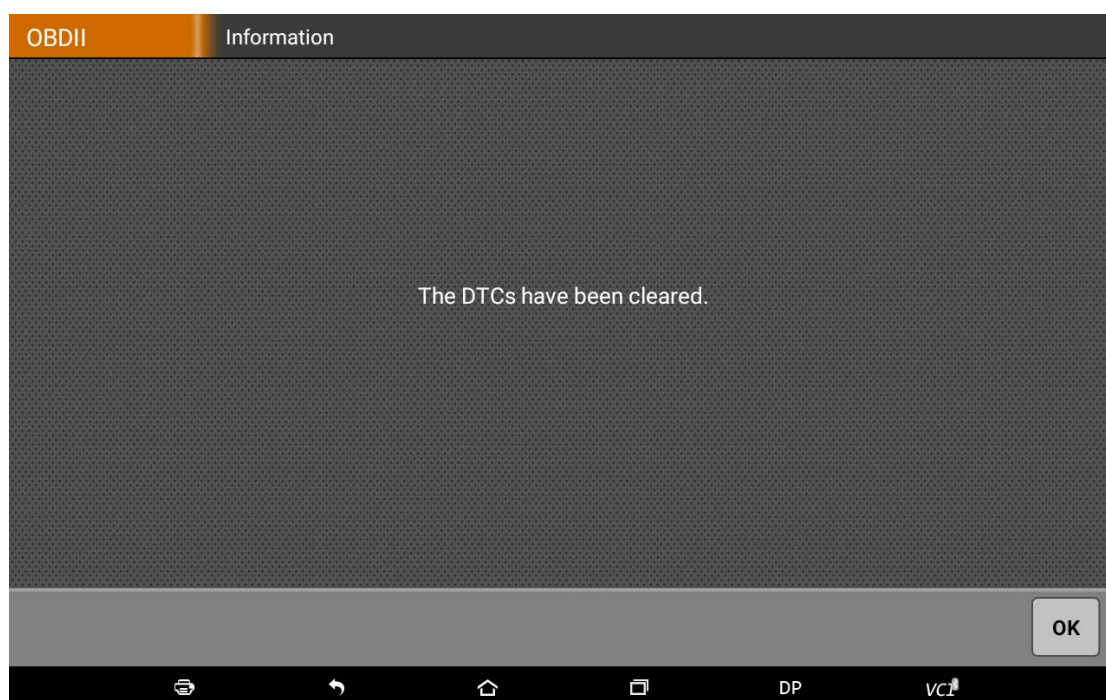

3 .5.2 Read trouble code

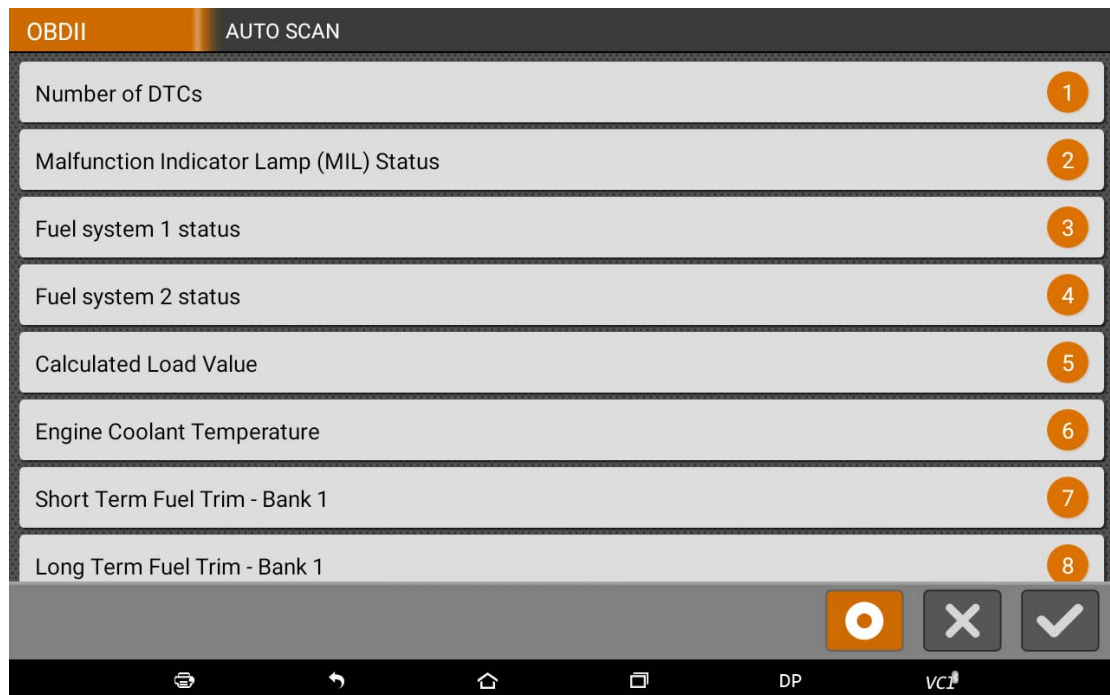

Tap "Read trouble code", as following photo shown:

3.5.3 Clear trouble code

3.5.4 Read data stream

OBDII AUTO SCAN		
Data stream name	Value	Unit
Fuel system 1 status	OL	
Fuel system 2 status	Not Used

3.9 SYSTEM SETTINGS

It includes VCI information, language, unit, data records, user information, help, about.

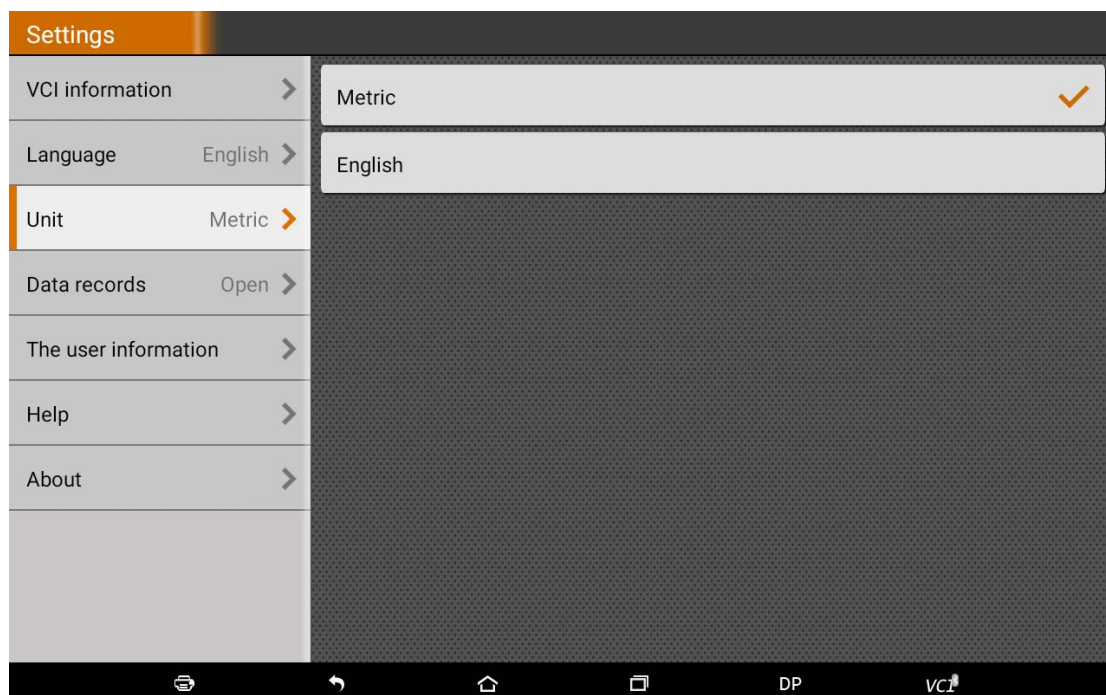

3.9 .1 VCI Information

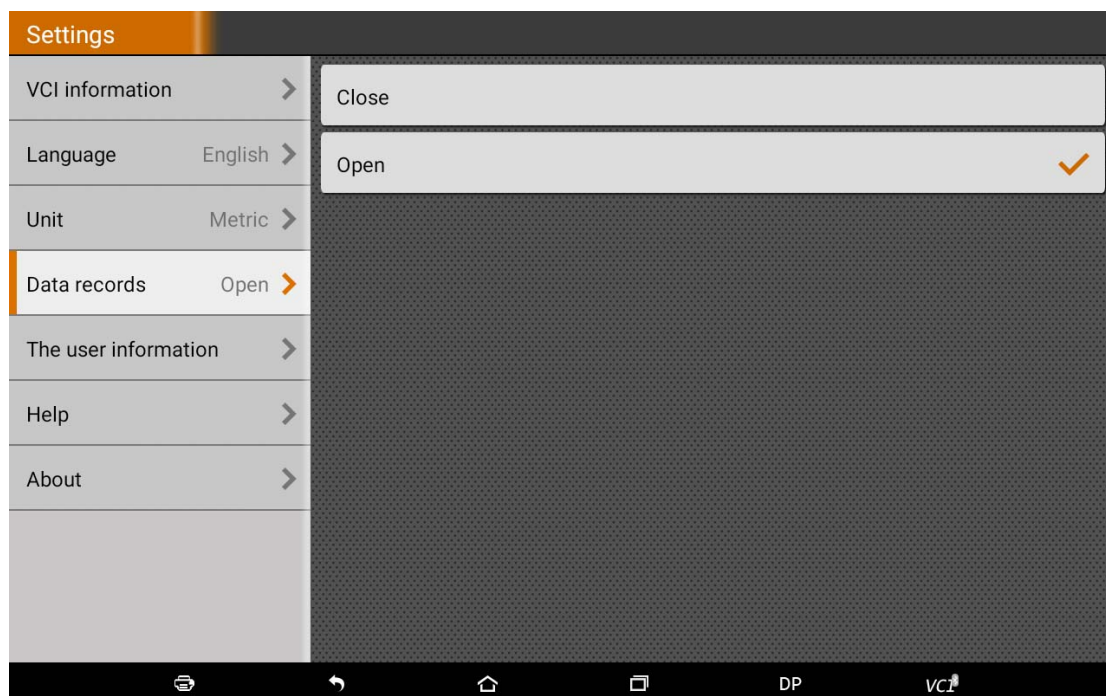

3.9 .2 Language

3.9 .3 Unit

3. 9. 4 Data records

3.9 .5 User information

It used to set and manage user's information.

3.9 .5.1 User login

The screenshot shows the 'Login' screen of the OBDSTAR X300 DP application. On the left is a 'Settings' menu with options: VCI information, Language (English), Unit (Metric), Data records (Open), The user information (highlighted with an orange bar), Help, and About. The main area is titled 'Login' and contains two input fields: a username field with the text 'XYCD' and a password field with masked characters '.....'. Below these fields is an orange 'Login' button. At the bottom of the main area are two links: 'forget password' and 'register'. The bottom status bar shows icons for a printer, back, home, and a list of items, along with the labels 'DP' and 'VCI'.

3.9 .5.2 User registration

The screenshot shows the 'register' screen of the OBDSTAR X300 DP application. The 'Settings' menu on the left is identical to the login screen, with 'The user information' highlighted. The main area is titled 'register' and contains a form with the following fields: SN, Register Password, Sale SN, user name, Password, Confirm password, user email, Company Name, Address, Person Name, Phone, and Post Code. Fields marked with a red asterisk (*) are required. At the bottom of the form are two buttons: an orange 'OK' button and a grey 'Back' button. The bottom status bar is identical to the login screen.

3.10 Remote Assistance

This application can realize remote hosting operation via the Third Party's software:

QuickSupport.。

3.11 REPORT CENTER

Diagnostic Report: Each diagnosis operation will create new diagnostic report. Those reports will be grouped by Month.

The screenshot shows the 'Report Center' interface with the 'Diagnostic report' tab selected. On the left, there are two menu items: 'Diagnostic report' (with a car and document icon) and 'Pit information' (with a car and house icon). The main area displays a calendar for '2016-08' with '1 items' indicated. A report card for 'OBDII>OBDII' dated '2016-08-30 16:56:39' with 'DTC number:0' is shown. The bottom navigation bar includes icons for home, back, and forward, along with labels 'DP' and 'VCI'.

The screenshot shows the 'Report Center' interface with the 'Diagnostic report' tab selected. The main area displays detailed information for a report titled 'OBDII>OBDII'. It includes a 'Vehicle information' section with fields for Year, Brand, Model, Sub m..., Engine, VIN, Licens..., Mileage, Color, and State. Below this is a 'Maintenance record' section with fields for 'The tester' and 'Testers note'. At the bottom, there is a 'Trouble code' section with a table header: System, DTC id, DTC description, and State. The table content shows 'No trouble code'. The bottom navigation bar includes icons for home, back, and forward, along with labels 'DP' and 'VCI'.

System	DTC id	DTC description	State
No trouble code			

Maintenance Station Information: Can record related information of Maintenance Station.

4 OTHERS

4.1 EMAIL

The function allows you to send and receive email. You can add common web email service provider in X300 DP. For example: Yahoo!®, Sohu, 163 and other manufacturers of external X300 DP or IMAP email account.

4.1.1 Add an email account

Note: Before sending or receiving email, you have to set up an email account. In addition, this function required a stable network connection.

1. On the desktop, tap  to enter main menu screen, and then tap
2. Input email address, tap “next step” or “manual setup”
3. Tap the desired account type (here take X300 DP as example) to enter the incoming settings screen, tap “Next”.
4. Configure some sending settings, and tap “Next” to enter frequency settings.
5. After setting, tap “Next” and the system will prompt account setup has been finished.
6. Tap “Next” to enter email main menu.

4.1.2 Delete an email account

1. Enter main menu screen, and tap to enter account screen.
2. Tap the desired account, and then tap to choose "Settings".
3. Tap the account to be deleted to enter, and then scroll the screen until "Remove account" appears, tap it to delete.

4.1.3 Send an email

1. Enter main menu screen, and tap to enter account screen.
2. Tap the desired email account.
3. Tap to enter new mail writing interface.
4. Input the receiver address in To field.
5. Input a title in Subject column.
6. Enter the content in Compose email area.
7. After inputting, tap , you can perform any one of the followings: attach file, add CC/BCC, save draft, discard and setting.
8. Tap to send email.

4.1.4 View email

1. Enter main menu screen, and tap to enter account screen.
2. Tap the desired email account.
3. Tap to refresh the inbox.
4. Tap the desired one to read.

4.2 WLAN

This function enables you to enjoy surfing on the internet and downloading data from the internet via Wi-Fi.

4.2.1 Set Wi-Fi on

1. Enter main menu screen, choose "Settings" > WLAN
2. When the WLAN sign appears blue, , it indicates Wi-Fi has been activated already.

Note: To prolong the battery life, please switch Wi-Fi off when it keeps unattended.

4.2.2 Connect to WLAN

Start WLAN, if X300 DP within range of WLAN, X300 DP can automatically detect and connect to current WLAN, select desired network and input password, then you can surf the internet by WLAN.

4.3 Browser

You can use any APP based on browse website and network.

4.3.1 Open browser

Enter main menu screen, tap to OBDSTAR the browser. You can choose the desired homepage or input the website address to browse.

1. Tap to input or edit the web link

2. Web page display area

3. Tap to open bookmarks , view history and saved web pages.

4.3.2 Browser webpage

1. Open the browser.
2. Input the web address, and tap "Go" on the keyboard to visit the website.
Tips: Alternatively, you can also tap , and then choose "Bookmarks/History" from the pull-down list to choose the web link you want to access.
3. After a webpage is open, slide the screen with the tip of your finger to view other hidden content.

4.3.3 Zoom in/Zoom out a page

There are two ways to zoom in/ zoom out while browsing a webpage.

- To zoom in so that the text on a webpage appears in a column that fits your device's screen, double-tap with the tip of your finger.
- To zoom in manually, place two fingers on the screen and then spread them apart. To zoom out, either double-tap again or place two fingers apart on the screen and then pinch them together.

4.3.4 Save favorite webpage to bookmark

While browsing a webpage, tap and choose "Save to bookmarks".

2. Edit a label for the bookmark.
3. Tap "OK" to confirm and save it.

4.3.5 Open multiple pages

The browser allows you to open multiple web pages and you can toggle between these pages.

1. While browsing a webpage, tap  and open new window.
2. Another web page will be displayed in the new window.

4.3.6 Customize internet settings

While browsing a webpage, choose "Settings", you can view or change browser settings, privacy & security setting and advanced setting etc.

4.4 Using Bluetooth

Bluetooth connection is supported on X300 DP. Using it, you can connect X300 DP to other compatible devices for data transmission.

The effective distance between X300 DP and other Bluetooth devices is max.10 meters. Please note Bluetooth connection is likely to be disturbed by other objects, such as walls or other electronic devices.

Notes:

- Some areas may restrict or prohibit the use of Bluetooth and its accessories, please comply with local laws and regulations
- please connect Bluetooth in safe, non-public place to ensure the security of your device.

4.4.1 Open Bluetooth

1. Enter main menu screen, tap "Settings" > "Wireless & networks"> "Bluetooth".
2. When the Bluetooth signal turns to blue, it indicates it is already on and a corresponding Bluetooth icon will appear on the status bar of X300 DP.

4.4.2 Allow other devices to search for X300 DP.

1. Enter main menu screen, tap "Settings" > "Wireless & networks" > "Bluetooth". Tap and choose "Visibility timeout".
2. Set the desired visibility option.
 - Two minutes: Set the desired visibility within one hour, Allow other devices to search for X300 DP

- Five minutes: Set the desired visibility within one hour, Allow other devices to search for X300 DP
- One hour: Set the desired visibility within one hour, Allow other devices to search for X300 DP
- Never timeout: Allow other devices to search for X300 DP

4.4.3 Search other devices and pair X300 DP with it

Before transmitting data with other Bluetooth devices, you have to pair X300 DP with it.

1. Check and ensure Bluetooth is ON.
2. Enter main menu screen, tap "Settings" > "Wireless & networks" > "Bluetooth".
3. X300 DP starts scanning all Bluetooth devices.
4. Choose the desired one from the search result to pair it with X300 DP.

4.4.4 Send the file via Bluetooth

You can send pictures, video or audio files to your family and friends for sharing via Bluetooth.

To transfer files via Bluetooth, please proceed following steps described below:

1. Enter main menu screen, and tap "File Manager".
2. Access the corresponding folder and choose the desired picture, video or audio file.

3. Tap the icon to select share and tap "Bluetooth" from the pull-down menu.
4. Tap the target device you want to transmit files in the searched Bluetooth device list.

4.5 CAMERA

4.5.1 Open and close camera

- Enter main menu screen, tap camera.
- In shoot mode, tap back button to exit the camera.

4.5.2 Take a photo

1. Open camera, select whether to remember the shoot spot of the photo ? Tap the next step.
2. In shoot mode, aim the camera lens at the object you want to photograph and adjust it as desired.

3. Tap to take a photo.

4.5. 3 View a photo

1. After a picture is taken, the picture will be stored automatically. Swipe the screen leftwards to view the photo.
2. While browsing a picture, you can do any one of the followings:
 - Tap to delete the picture.
 - Share, tap to send this picture to your friend or upload it online.
 - Edit, beautify the photo, and view the detailed information of the photo.
 - Tap the back button on photo interface to return to the shoot mode.
3. Swipe the screen rightwards or leftwards to view the next/previous picture.

4.5. 4 Record a video

1. Open the camera, and swipe the screen rightwards to display button , and switch to video mode.
2. Aim the camera lens at the object you want to photograph and adjust it as desired.

3. Tap to start recording.

4. Tap to stop recording.

4.5. 5 View a video

1. After a video is recorded, the video will be stored automatically. Swipe the screen leftwards to view the video
2. The following operations can be done:
 - Delete, delete the video.
 - Share, send this video file to your friend or upload it online.

5. Select or deselect “Use 24-hour format” to switch between 12-hour format and 24-hour format.
6. Tap “Choose date format” to choose the desired date of X300 DP format from the list.

4.17 RESTORE KEY MASTER TO FACTORY SETTINGS

This option enables you to restore X300 DP to the default factory settings.

Once it is reset, all data (including downloaded applications) will be deleted.

Note: Before resetting to factory data, please back up all important data saved in Your X300 DP.

1. Enter the main menu screen, tap "Settings" > "Backup & reset" > "Factory data reset".
2. Follow the instructions on the screen to proceed.

4.18 STORE

Enter the main menu, and tap setting> store check the store situation of the device.

Store the download content in the default browser to the download content list.

4.19 APPS INSTALLATION/ UNINSTALLATION

1. Install: Put the application package under the root directory of SD card, enter "File Manager" and then tap the desired package to start installing.
2. Uninstall: Tap "Settings" > "Apps", and choose the desired one to uninstall.

Warranty

THIS WARRANTY IS EXPRESSLY LIMITED TO PERSONS WHO PURCHASE OBDSTAR PRODUCTS FOR PURPOSES OF RESALE OR USE IN THE ORDINARY COURSE OF THE BUYER'S BUSINESS.

OBDSTAR electronic product is warranted against defects in materials and workmanship for one year from date of delivery to the user.

This warranty does not cover any part that has been abused, altered, used for a purpose other than for which it was intended, or used in a manner inconsistent with instructions regarding use. The exclusive remedy for any automotive meter found to be defective is repair or replacement, and OBDSTAR shall not be liable for any consequential or incidental damages.

Final determination of defects shall be made by OBDSTAR in accordance with procedures established by OBDSTAR. No agent, employee, or representative of OBDSTAR has any authority to bind OBDSTAR to any affirmation, representation, or warranty concerning OBDSTAR automotive meters, except as stated herein.

Disclaimer

The above warranty is in lieu of any other warranty, expressed or implied, including any warranty of merchantability or fitness for a particular purpose.

Purchase Order

Replaceable and optional parts can be ordered directly from your OBDSTAR authorized tool supplier. Your order should include the following information:

Order quantity

Part number

Part name

Customer Service

Any question during the operation, please call 4008889161.

If your unit requires repair service, return it to the manufacturer with a copy of the sales receipt and a note describing the problem. If the unit is determined to be in warranty, it will be repaired or replaced at no charge. If the unit is determined to be out of warranty, it will be repaired for a nominal service charge plus return freight. Send the unit pre-paid to:
